of his recent letters:

Aside from the immeasurable injustice of throwing so large a part of the birdes of government on the backs of the geople, and with aggravated worsh; on the backs of the laboring masses and the peoper and with aggravated worsh; on the backs of the laboring masses and the piece good how wollen goods beyon the reach of many hundreds of thousands of the later, and compatible to face the rigor and cold of farm and factory work of the union and the lumber compland the wlotry sea, in garman's chiefly composed of cutton and other, adulteriant, yet taxed as if made culticly of new wool.

It is not quite, easy to characterize a man who will write such stuff us the paragraph quoted, capecially a man who was largely instrumental in Imposing upon the people more suffi ring and hardship than they have ever known before, and whose argument has been disproved by the operation of the very tariff law bearing his name. If he is honest he is bearing his name; at me is monest as in not sound mentally. Under the Melkinder law wood was pretected and during FINEST DISPLAY FOR YEARS edition, up to the hour of going to press cratic, Administration, the people had more, better and cheaper clothing than ever before. When it comes to a discus. Early Orders Splicited. elon of the use of adulterants, the people have had a most impressive object leason F. El. MOSES, in the operation of the bill with which no of Prof. Wilson is identified In 1802 with the McKiuley turiff on web! se imported 262,903 pounds of shodey, while in 1800 with Prof. wilson's Tree wool theory in full operation the import tations of shouldy reached the enormous total of 10,770,076,pounds.

It will thus be seen that us a figure of

speech the l'rofessor's reference to the poorer people compelled to "face the rigor and cold of farm and factory work, of the mine and the lumber camp, and the wintery sea, in garments chiefly composed of cotton and other adulteranar," has a most pathetle sound, but like most of the Professor's deas cannot stand the test of facts of record. A portion of the decrease in the value of borses is due to other than business conditions brought about by the Democratic tariff, but the shrinkage has been caused in a large measure by the general depression that has followed the Democratic tarlff raid for , which the country has to thank Prof. Wilson and his free trade colleagues, When we said to this arraignment' the fact that the existing tar-increase in the bonded indebtedness of the country, sensible men will see abundant reason why Prof. Wilson should refrain from even au atlempt to do fur PHILAPELPHIA missists the effects of the proposed Republican tariff law, calculated to restore the prosperity wrecked, by the Demo-
